**Attachments:** image001.jpg

Andrea,

Here is the functional square footage information that was provided to me--after several iterations of getting some stuff that just wasn't right. I still don't know if any of this, except maybe the "Other" category reflects any leased space or if the "Other" column is for space at RSL-Andrews, Los Alamos Office, Livermore Office, or STL, none of which are being addressed in the NTS SWEIS. I'll continue to pursue it and let you know what I learn.

I'll send you other emails that I've received so you'll have the whole string. Of course, they may be more confusing than enlightening but maybe they'll help a little.

Mike Skougard

Hi Michael,

Gerry Babero asked me to send this you yesterday, but I was out of the office. Let me know if you have any questions.
